- Wednesday = 2
- Thursday = 6
- Friday = 3

Total SRM CEU's = 11

Registration information available at: <http://www.ndswcs.org>, click on the What's New link.

SWCS Chapters across the United States foster the science and art of natural resource conservation. The work of chapters targets conservation of soil, water, and related natural resources on working land - the land used to produce food, fiber, and other services that improve the quality of life people experience in rural and urban communities. Chapters work to discover, develop, implement, and constantly improve ways to use land that sustains its productive capacity and enhances the environment at the same time.
